PROJECTS

Money Mentor   Jul 2018

- Worked in a team to design and develop a personalized financial mobile application that encourages better spending habits and budget tracking.

- Contributed in building meaningful UI and data visualizations including remaining spendable, actual vs. budget, and spending by categories

- Integrated third-party API to retrieve bank and transactional data

- Implemented push notifications using Expo and node-schedule

- Won People's Choice and Developer's Choice awards at FullStack Academy July 2018 Demo Day (out of 27 total teams across various cohorts)

- Developed with React-Native, Redux, D3, Node.js, Express, Postgres

ShareLocation   Jun 2018

- Designed and developed a mobile application for real time geolocation tracking and sharing for connected users

- Developed with React-Native, Socket.io, Express

Express-O   Jun 2018

- Worked in a team of 4 developers to design and develop an e-commerce platform where users run, create, and manage a store

- Developed with Node.js, Postgres, Sequelize, Express, React-Redux

- Implemented product views and shopping cart feature in which users and/or visitors can add, remove, update items to the cart, and see order subtotal

WORK EXPERIENCE

Ernst & Young LLP - Manager, IT Risk Advisory

New York, NY   Nov 2015 - Nov 2017

- Led 5+ teams of junior staff through SOX 404 integrated audits focusing on IT control activities for in-scope applications, supporting infrastructure, and reported directly to project and client executives in delivering weekly deliverables

PricewaterhouseCoopers LLP - Sr. Associate, Risk Assurance

New York, NY   Jul 2012 - Nov 2015

- Served as engagement senior, leading a team of 3+ junior staff, in executing the audit, and effectively communicated weekly status, and presented potential issues
